

Our mission at Princeton Chromatography, Inc. is to provide our pharmaceutical customers with the highest quality HPLC and SFC solutions the market has to offer. With over 35 years of HPLC experience, we are able to provide an unmatched variety of products with custom tailored answers for even the most difficult separations. Our team of professional chromatographers is available to assist you not only in the selection and purchase of your columns, but with long term support. Here at Princeton Chromatography we are constantly innovating and pushing the limits of HPLC and SFC. No other company offers more flexibility and choices on a consistent basis than we do. Quality. Choices. Flexibility. Innovation. Support. Five words. One goal. The complete and total satisfaction of our customers.
